

EDUCO
CANADA

Board Bio:

Tristan Read

I have spent the last 18 years connected with Educo Canada. I was a student for many years, then transitioned into a staff member. I have now been on the Board of Directors for 3 years. Educo wasn't just a summer camp of job for me. it was a home. The things I learned and the people I met there have made me the person I am today.

These days I am living in Rossland, BC with my wonderful wife Lise Levesque, and I am currently working as a Stakeholder Engagement Facilitator with Thoughtexchange.

Before I worked at Thoughtexchange, I was an outdoor guide, safety coordinator, mentor, manager and director with many different organizations. I have a passion for the outdoors, especially skiing and mountain biking, and I am driven to find ways to bring the clarity of the outdoors in to everything I do.

Thanks,

Tristan Read
