Financial Assistance

Thanks to the generosity of many donors and funding sources, Educo Adventure School is able to grant financial aid to Educo participants. We believe that Educo's programs offer life-enriching experiences, and we seek to offer support to those who may be prevented from participating due to a lack of financial resources.

Apply for assistance from Educo by completing the attached questionnaire. Also, there are other funding resources that may be worth considering: United Way, Jumpstart, Boys & Girls Clubs of Canada, or perhaps you can even hold your own bake sale, bottle drive or do small jobs for family, friends and neighbors (yard clean up, car washes, etc). Service BC/Canada or Ministry programs aimed at Family and Youth that your family may be involved in or have access to, may also have funding available. Did you know that Educo Adventure School's fees are also eligible for child fitness/arts tax credits?

Each application for financial aid is treated confidentially and considered with care and respect. The funds for our financial aid program are limited; we try to help everyone who applies in some way but assistance is not guaranteed. Please take the time to carefully answer the follow questions and provide us with the information necessary to help us help you!
